SUMMARY

A proactive and results-driven **B.Tech Aerospace Engineering student** with a strong passion for the aerospace sector and hands-on expertise in key technical areas. Proficient in **CAD design** (Solidworks, Autodesk Fusion, OnShape, Shapr3D), **simulation** (Ansys, FEA, CST studio Suite), and **system integration** (Robotics, IoT Systems Development, Arduino/ESP32, Python). Experience includes contributing to the mechanical design and simulation for a 1U CubeSat as a System Engineer Intern, designing and building racing drones (ArduPilot), and leading research as the main author at IAC25.

EDUCATION

- **B.Tech in Aerospace Engineering (AE)**

Amity University Haryana | 2023-27
CGPA: 7.9

- **12th (CBSE)**

Salt Brook Academy | 2022
Percentage: 73%

- **10th (CBSE)**

Kiran academy, Dhemaji | 2020
Percentage: 86.16%

WORK EXPERIENCE / PROJECTS

- **RC Boat Builder:** Designed and built a racing RC boat powered by a BLDC motor and ESC, achieving high-speed performance.
 - **ASTRIX Rover:** Designing a rover with rocker bogie Suspension in CAD.
 - **Racing Drone Engineer (ArduPilot):** Designed and built a racing drone using ArduPilot.
 - **Robo Car Developer (Arduino ESP8266):** Built a racing robo car using ESP8266 and motor driver modules for wireless control.
 - **System Engineer Intern Space Technology and aeronautical Rocketry(STAR):** Working with a team to build a 1U CubeSat, it's mechanical design, simulation, and learning electronics.
 - **Research:** Lead a research Team as the main Author at IAC25. DOI : 083102-0052
 - 3D printed PLA **RC aircraft** design
 - **Vice President** of Techniki, a Tech Club focused on innovation.
-

EXTRACURRICULAR ACTIVITIES

- Silver Medalist in Drone Race Competition at Amity University.

- Working as a Vice President at Techniki (Club).
 - Participated in ISRO's AI Immersion Challenge at IIIT Hyderabad.
 - Active in business strategy and management discussions.
 - Likes to travel new places, Astrophotography and Stargazing
 - Practicing Taekwondo, showcasing discipline and physical fitness.
-

LANGUAGES

- English (Advanced)
 - Hindi (Fluent)
 - Assamese (Native)
-

SKILLS

- Programming: Python, C-Embedded (Beginner)
 - Ansys FEA
 - CFD Ansys
 - Hardware: Raspberry Pi, Arduino (UNO, ESP32)
 - Solidworks
 - Autodesk Fusion
 - Shapr3D
 - OnShape
 - 3D printing
 - Robotics and IoT Systems Development
 - CST studio Suite
 - FEA (Finite Element Analysis)
 - Strategic Planning
 - Arduino IDE
 - Research
 - Modeling and Simulation
-

CERTIFICATIONS

- Certificate of Merit for **2nd Prize** in Drone Race 2024, Inter-University Fest at Amity University.
 - Certificate of Participation in '**IOT Mobile Robotics** with Arduino' workshop at **TRYST-IIT Delhi**, 29th – 31st March 2024.
 - Certificate of Participation in '**ISRO Immersion Challenge**' jointly organized by IIITH and **NRSC-ISRO**, 3rd August 2024.
 - Got selected for IP, **IAC25** at **Sydney, Australia** organised by International Astronautical Congress, Title: Fourth Space: Innovating Public Engagement to Unlock Inclusive Space Business Model. **DOI** no.083102-0052.
 - Certificate of merit for **2nd prize in Robotics race**, Amifest 2026 in Amity University Haryana.
 - Certificate of completion **Aerospace Engineering: Rocket Science and Engineering** from Udemy.
 - Certification of SWAYAM portal: **Drone systems and Control**
-
